## ABOUT ME

A third-year Information Technology student passionate about programming and web development, seeking to gain experience in the IT field, with a strong commitment to applying academic knowledge to real-world projects and continuously learning new skills

## TERM PROJECTS

### Client Side & Sever Side Web Programming

- DIY product-selling web application
- Used React for the client-side, Golang for the server-side, and implemented database preparation to ensure seamless functionality.

### Business Information Systems & System Analysis and Design

- Performance Appraisal System (Human Resource)
- Collected data and analyzed the current system, gathered user requirements, and developed a new system using React and Golang.

### Human computer interaction and User experience design

- Design Ux/UI for SU Bus Mobile Application
- Applied knowledge from user experience courses to design and develop user-friendly interfaces.
